JOINT MOTION TO EXTEND PRE-TRIAL SCHEDULE

Plaintiff, Safe Bed Technologies Company, and Defendants, KCI USA, Inc., Loyola University Health System, Rush System for Health, Swedish Covenant Hospital and Sherman Hospital, jointly seek the entry of an order extending the previously scheduled pre-trial dates by approximately ninety (90) days. This is the parties' first request for an extension of time.

On or about November 22, 2002, the Court entered a pre-trial schedule. The Parties have been conducting discovery, but it is not yet completed.

During Plaintiff's document production, it inadvertently produced certain documents (i) protected by attorney work product doctrine and/or attorney client privilege and (ii) that were subject to a protective order in another case.

52

Upon Plaintiff's motion, the Court ordered Defendants' counsel to not inspect those documents, preventing Defendants' counsel from working on the case, until Plaintiffs identified which documents are to be withdrawn. Accordingly, to allow the parties adequate time to prepare, the following new dates are proposed:

EVENT	NEW DATES IF MOTION GRANTED
Complete fact discovery	April 14, 2003
Exchange opening expert reports	June 5, 2003
Exchange rebuttal expert reports	July 9, 2003
Exchange reply expert reports	July 23, 2003
Disclose proposed claim construction	July 30, 2003
Expert depositions to be completed	August 18, 2003
Joint list of disputed/undisputed claim terms and claim construction motions	September 22, 2003
Dispositive motions	October 20, 2003

There is no trial date set in this matter, so the requested extension will not delay any scheduled trial date.

The parties request that another status conference be set at the Court's convenience.

CONCLUSION

For the foregoing reasons, Plaintiff and Defendants jointly seek the entry of an order extending the pre-trial schedule as specified above.
